RULES OF PRECEDENCE FOR THE WEARING OF CADET PROFICIENCY AND SKILL-AT-ARMS BADGES

Proficiency and skill-at-arms badges earned by cadets are to be worn on the armet brassard. Not more than four proficiency and skill-at-arms badges are to be worn at any one time. They are to take precedence from top right to top left to bottom right to bottom left. The eight groups of badges are depicted above in their order of precedence, the APC badges taking highest precedence. Badges are shown in ascending order of precedence from left to right in the following groups: APC, Duke of Edinburgh's Award, Skill-At-Arms (shot classification badges only), and Cadet Leadership Courses. No cadet is to wear more than one of the badges awarded for small bore or full bore shooting. The highest badge held whether small bore or full bore, is to be worn. When a cadet is entitled to badges of equal value for small bore or full bore, the full bore badge is to take precedence. The four permissible badges are to be worn in accordance with these rules of precedence by groups and where applicable by precedence within groups.
